Introduction In this post I will show you how to downgrade your Oppo Realme one to oppo A5s V3s Android 9.0 Pie (Upd: 11/04/15). This is the upgrade you must do for that. I am aware that an alternative to this guide is the official Oppo one (More info HERE). But how about playing with your phone? Maybe you have a different one? How about trying another rom to your Oppo Realme one? Well, that's the point of this guide. It allows you to try different roms. Also, you will be able to try to get the battery draining problem solved, which is being described in this guide. Also, I also have a few tips if you don't know what to do. I will be using the following tools and manuals on this guide: Get start from here: A, D, F, K. Flash SIIE Tool: P, T. A5s V3s rom (OPPO Realme one): C. Realme 2 [S2]: E. Reim Team Official rom (For those that can't afford a new S2 so avoid this one): A. Important! Please, keep in mind that it's not my goal that 570a42141b
