FolderIconDrop

FolderIconDrop is a handy utility that can help users change the default icon for any folder on their computer without significant efforts. Key Features: * Just provide the folder you wish to customize. * Set the icon, and choose the type of index you want to use. * Automatically optimize the change and provide you with detailed information. How to Install: 1. Extract the file to any directory on your hard drive. 2. Press the OK button to launch the setup file. 3. Follow the prompts. 4. Launch the program. 5. Enjoy the customize-faster way! Overview: "Drag and drop" is an easier way to perform file operations on the computer. However, it doesn't always work and is often considered a nuisance. FolderIconDrop provides you with a solution to the problem by allowing you to change the folder's icon with a single drag and drop operation. It's intuitive interface makes it very easy for users to perform these operations, and since there's no need to go to the "Properties" menu, drag and drop is truly effortless. There's also a customizable, intuitive interface that can help you make your system look and function the way you want it to. Why Use This Tool? When it comes to file operations, drag and drop is often considered a nuisance by users. Drag and drop is even perceived to be a wrong way to perform file operations because it often changes the icon for the target folder and often creates unwanted files. In an effort to solve this problem, FolderIconDrop was created. It lets you change the folder's icon without using the "Properties" menu, in order to make file operations more easy and hassle-free. What It Can Do? FolderIconDrop allows you to change the icon of any folder on your computer. It doesn't only change the folder's icon; it also allows you to set the preferred icon index. This means that the tool can also be used to change the system's default icon and to change the way the system's default folder icons look. There's also a way to choose a folder and change its icon without making any changes to the folder itself, by using the drop-down menu. How To Change a Folder's Icon? Selecting a folder to be changed will take you to the main window, where you can start the drag and drop operation. The procedure will be the same as that when using drag and

FolderIconDrop does not make any changes to your system, nor does it create any registry entries. Customer reviews Write a review of the app "FolderIconDrop" here.Q: Get rid of flash effect with HTML5 video I'm developing a sort of video game with Flash. I want to develop it with HTML5. What I've noticed is that in Chrome, YouTube videos don't have the black border they do in Flash, and they don't have the black inner-flash border that you can see on the iPhone videos that don't have any Flash. I can't
