verwundert.Contents The first of the Uruguayan infielders was the short stop, usually an infielder with good arm strength that could execute a slow infield turn and throw a runner out from a tough angle. The best of the "Ugly Yeti," Fred Lynn, was joined in the short stop leadoff spot by Wade Boggs. However, the next two years featured the pitchers pulling the skin off the infield from Tampa to Cleveland. Toward the end of the last decade, the perception was that the shortstop was one of the least significant positions in baseball, and it was treated accordingly. Thus, during the first decade of the 21st century, there were only five major league shortstops who played significantly. A position that was once considered one of the weakest in baseball became one of the strongest. In 2005, Alex Rodriguez was the first great shortstop in the new millennium. He was a unanimous choice for the American League Rookie of the Year. Rodriguez quickly moved into a place of prominence. He won the American League batting title in 2006, batted.290 with 35 home runs and 105 runs batted in, and won the AL's highest individual honor — being named to the American League All-Star team. He was also selected for the AL Most Valuable Player Award. During the 2006 postseason, the shortstop position became a battleground. Rodriguez and Arizona's Nomar Garciaparra tangled for the most Gold Gloves in one team's history. Garciaparra won the award three years in

a row, from 2002 to 2004, but Rodriguez excelled in 2006, and his superior fielding helped the Yankees win their first World Series in sixteen years. Rodriguez's quick speed and dead-straight approach made him a tough out for base stealers. In his three-year period as the AL's MVP, he was able to get to 20 first-step doubles in 225 at bats, a feat that had never been accomplished before in the league's modern era. Since Garciparra's departure in 2007, the American League shortstop became unpredictable. 570a42141b
