Elden Ring Features Key:

A Third-Person Action RPG with Unique Online and Offline Play At least one person must own the activation code and login/name of a code.
Fighting against great dangers, combat with your iconic style The CPU and player characters are controlled by the player.
Intricate Level Design Unique dungeons that feature diverse environments full of threat that keep expanding, that evoke a sense of mystery and have many side quests.
Battle with high-level enemies Experience battles with powerful and unique monsters, including a large variety of Hunting Monsters, and fight against a huge variety of monster types through meaningful battles.
A Dynamic Battle System A variable battle system that emulates real battle situations in which strategy and tactics decide the battle and increases the tension through an optimal pacing of battle elements.
Unique Companion Characters Combine your armor with valuable companions, taking the fight along with you, to cover your back and unleash strategy in battle.

We have a lot planned for the future. We'll bring you surprising development and content from now on. Let's continue on the path of the Elden Ring!
