Stocks To Riches Book Review Stocks to Riches by Parag Parikh As a new and beginning investor, the most important thing that I want to achieve is to develop a profitable investment horizon “ In the first part, Parag elaborates in the title, all about stock market and different kinds of investment possibilities. If we try to apply the investment styles to the different stages of life, then we will realize that stock market is the best investment vehicle for us. Parag Parikh, the author of this book, initiated his career as a stock market analyst. Through his occupation, he had to choose many investment vehicles with which he initiated his career but, in spite of that, Parag has been observed for his expertise in the field of investment strategies. The book is divided into four parts. The first part consists of an intro which depicts the basics of stock market. In this part, Parag is very specific that the possibility of investing in the stock market is that, the overall success of one is dependent on the other. The author explains his opinion in detail in the second part. The reader will learn different investment techniques along with their pros and cons. In the third part, the author explains different kinds of trading mechanisms and their pros and cons and how their usage will benefit the investor. The third part is one of the sections which has given the simplest and honest analysis of the book which is written
