This patch adds the delayed rr mtu delegation (DRMRTU) to add such validation. xfrm6: add the delayed rr mtu delegation via IKEv2: o Add the DRMRTU extension o Specify new two types of security associations: "routed" and "delayed rr". o Allow to manually initiate (and bind) such associations. o Specify new IKEv2 CCMP or CHAP options for these types of security associations. o Specify new XfrmValue() types and optional "IPsecU" prefix for such option values. o Modify the RFC IKEv2 decoder to keep ARIES contained inside XfrmUpdate. o Modify the RFC IKEv2 encoder to keep ARIES contained inside XfrmUpdate. o Specify new XfrmUpdate fields for these options. o Add IKEv2 XAUTH option with new XfrmValue() type. o Modify RFC IKEv2 decoder to keep AUTH and XAUTH into XfrmUpdate. * Thu Sep 14 2007 Dmitry Shachnev - 4.7.2-1 - published o add the new DRMRTU extension type.

Full Version., we thought the film had
some great moments, but it also
seemed to be a mess (like the credits,
the medical film, and the CGI fauna).
