I have a listbox with a line at the bottom that shows the total number of listbox items. I would like to reverse this list, so that I can show the total no. of items on the bottom first. I am using Delphi 7 and trying to make a VCL app. A: You can add a helper function to reverse the array of items. Then iterate backwards through the items in the list. function ReverseArray(const Source: TArray): TArray; var n: Integer; begin Result := nil; n := Length(Source); if n > 0 then begin Result := Copy(Source, 0, n); for i := n - 1 downto 1 do Result[i] := Source[ c6a93da74d
