FreeModem adds an easier way to manage your modem connection. It is based on set-up mode and does not require user to have any modem skills. It is very easy to use and is helpful to people that are looking for a better modem connection experience. If you already have any modem software, FreeModem will integrate with it as a modem set-up mode. Also, it is a multi-connection modem, which means that you can use more than one internet connection at once. If you are unable to connect to your internet using your modem or you are not sure which internet connection you should use, you can use it to split your modem's internet connection to more than one connection. All you need to do is press the FreeModem "Splits" button and connect your modem to the internet using one internet connection. FreeModem can be easily configured by clicking "Options" button and configuring your modem's internet connection. Harmonized Modem is a program that does many things for your modem, including changing your modem's settings, identifying your modem's connection speed, scanning your modem to see what's wrong with it and more. It uses your modem's manufacturer's and/or your modem's web-based set-up pages to set the connection speed, detect the error and synchronize. Harmonized Modem is very easy to use and it doesn't require any modem skills. It is an ideal solution for people who want to change or setup their modem's connection settings and/or can't connect to their internet using their modem. You can also use Harmonized Modem to check the modem's error, synchronize and use different connection modes. Latest updates: 1. Fixed a bug that made the connection speed not change when using the "Speed" button. 2. Fixed a bug that caused the application to stop displaying a popup after restarting it. Growl4D is a application that lets you see Growl

notifications in your computer. Growl is an application that allows you to see messages on your desktop, so you can set it to check emails on your computer in order to always be informed of new messages. It is a free version and it does not use any resources, so you can use it even if you don't have any internet connection. With Growl4D you can choose to have 2edc1e01e8
