2edc1e01e8

Presentation Pointer Portable is a useful application that you can use to easily customize your mouse cursor. You can create different effects that are going to emphasize each mouse click. By default, you can create a big colored circle, highlight your keystrokes or the whole monitor screen. You can further customize your mouse cursor, to emphasize specific areas. The application is a portable program and doesn't require installation. It can be copied to any location on the hard drive and even to a storage unit such as a USB flash drive. The latter option enables you to run Presentation Pointer Portable on any computer that you may have access to. Most importantly, the program is not going to update the Windows registry and Start menu/screen with new entries. The application enables you to emphasize all your mouse clicks, be them left or right, by creating a small colored circle around it. The color, radius, animation duration and audible feedback (only WAV files accepted) can be controlled by the user. The mouse cursor can be accentuated in three different manners, so as to grab attention. The first one is to create a very big pointer of customizable opacity, color and point size. Highlighting is the second option that builds a colorful circle, ellipse or rectangle around the cursor shape. Finally, you can darken the whole screen minus a small part around your mouse pointer. The utility also enables users to show their keystrokes on the monitor, use a pen or magnify specified parts of the screen. All the aforementioned actions have keyboard shortcuts, so as to enhance usability. Moreover, they are customizable, so that you can remember them even easier. All in all, Presentation Pointer Portable is an efficient piece of software that can help you easily grab your audience's attention by modifying the way your mouse cursor looks like and by making your keystrokes visible. The interface is intuitive and there are a lot of customizable options available, in order to suit any taste. 1.0 Users reviews 5.0 (1 review) M March 21, 2020 It has worked very well in my opinion. 5.0 (1 review) K February 21, 2020 It's really worth your money. Very user friendly 4.0 (1 review) M February 13, 2020 It's really worth your money

What's New in the?

Presentation Pointer Portable is the portable version of Presentation Pointer and enables you to create different effects for your mouse cursor, so that you can easily grab your students' attention. Since this software utility does not require installation, you can copy the program files to any location on the hard drive and even to a storage unit such as a USB flash drive. The latter option enables you to easily run Presentation Pointer Portable on any computer that you may have access to. Most importantly, the program is not going to update the Windows registry and Start menu/screen with new entries. The application enables you to emphasize all your mouse clicks, be they left or right, by creating a small colored circle around it. The color, radius, animation duration and audible feedback (only WAV files accepted) can be controlled by the user. The mouse cursor can be accentuated in three different manners, so as to grab attention. The first one is to create a very big pointer of customizable opacity, color and point size. Highlighting is the second option that builds a colorful circle, ellipse or rectangle around the cursor shape. Finally, you can darken the whole screen minus a small part around your mouse pointer. The utility also enables users to show their keystrokes on the monitor, use a pen or magnify specified parts of the screen. All the aforementioned actions have keyboard shortcuts, so as to enhance usability. Moreover, they are customizable, so that you can remember them even easier. The interface is intuitive and there are a lot of customizable options available, in order to suit any taste. ... AVC Mobile Video Converter is a simple and efficient software utility that enables you to convert video files from various formats to MP4. It is not a screen recording program, so that you can find the screen recording feature pretty fast by just pressing the "Record" button. The application also supports screen capture and shows the selected area of the screen in real time, as if you are taking a photo. AVC Mobile Video Converter is easy to use and extremely powerful. You can choose your desired output resolution, frames per second, bitrate, audio channels, sample rate, sample size, etc., and the software will take care of the rest. You do not have to manually edit the output file and everything will be fine, as it will overwrite the source files with a new resolution, frames per second, and audio channels, etc. AVC Mobile Video Converter also offers one of the best reviews at around 45,000, so that you can download this powerful application without any doubts. AVC Mobile Video Converter is

Compatibility Compatibility: Windows XP or higher / MacOS 10.6 or higher (OS X 10.7 or higher is recommended) Features Personalize your personal message with customized jingles to use in-game or just as your in-game character jingle! Add as many as you like to the saved jingles list to use them in-game! With this mod, you can also enjoy awesome music and voice work by guests such as Hans Zimmer, Christopher Franke, and Brian Tyler. Easy-to
